SECURED AGAINST GUNPOWDER

—AND—

Warranted not to Injure Books or Papers by Dampness

THESE are the only Safes (WILDER'S PATENT) that have in every instance preserved their contents when exposed to large fires, like the burning of the Tribune printing office in New York city and many others too numerous to mention.

The above Safes are manufactured and for sale by JOHN E. WILDER, Boston, and for sale in Bangor, at the manufacturers prices by FISKE & DALE.

The following letter from the Superintendent of the Maine Telegraph Company is another proof of the superiority of JOHN E. WILDER'S Safe over all others—

BANGOR, Oct 25, 1850.

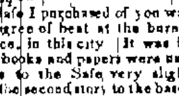

John E. Wilder, Esq.—

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the fire six hours, the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building. The little repair necessary to the Safe have been made and we shall not need to return it. It is still as good as new.

Respectfully yours, JAS. EL [illegible]

The Demand against the Haytien Government —A letter from Hayti received in this city, dated March 18th says —"The Haytien Government had demurred about paying the claim for damages for the illegal imprisonment of Capt. Mayo of the American brig Leander, saying that all the forms of law had been complied with. Commodore Parker of the Saranac replied that the remarks of the Minister were totally unsatisfactory, and asked a decisive answer whether the money would be paid or not. Three days elapsing without any answer, the Commissioner made a second demand, *limiting the hour* that he would wait for an answer. The time had not elapsed when the letter was written. Other letters state that the Emperor's Government protest against this claim for damages, saying that nothing more was done in this case than the laws of the country demanded.—[Boston Traveller

☞ A Teachers' Institute has recently been held in the county of Kennebec, in the town of Greene for the purpose of investigating Prof Mandeville's system of reading and becoming acquainted with its merits Very great interest was felt in the exercises as will always be the case where the truth is apparent and the unfolding of the subject is conclusive This company of teachers, after becoming thoroughly acquainted with the system, declared as follows

1 That Prof Mandeville fully establishes the four fundamental principles of his System laid down in his Reading and Oratory (page 25 new edition)

**Life Insurance.**

*To the Editor of the Whig and Courier*

It is not generally understood how advantageous it is to a person's interests, both in a moral, physical and philosophical point of view, to have his life insured by some responsible Company

Morally considered, it elevates and frees a man from selfish feelings and he labors cheerfully in his vocation to pay the small annual amount that ensures to those he loves a freedom from privation and want when he is removed from them At the same time, it inclines him to be economical and industrious and better fitted to sustain and discharge the social and domestic duties devolving upon him

In a physical and philosophical point of view, the connection between the mental and physical organization is so intimate, that in sickness, the nature of the influences exerted by the former upon the latter often determines the result, if the mind is tranquil and cheerful a favorable issue is more confidently anticipated but if the individual is subjected to the corroding and debilitating effects of anxiety from the reflection of leaving a family destitute and unprovided for, the appropriate remedial measures lose their potency and the result is rendered comparatively doubtful and uncertain In this light then the subject of life insurance commends itself to the serious consideration of the community

Its importance should not be overlooked by the *Merchant* who is peculiarly liable to disease imported with his cargo from foreign lands, or different parts of our own country

*Farmers and Agriculturists* whose homesteads and farms are unfortunately mortgaged, should remember that in case of death a Life Insurance Policy will prevent a foreclosure and avert distress and ruin from survivors by satisfying the claims of the mortgage

A *Creditor*, in case the debtor should die may secure his debt by insuring the debtor's life if A aged twenty seven years is indebted to B $1000, $10 a year will *secure* the debt, provided A should die in seven years

A *Debtor* may effect a satisfactory arrangement by having a policy made out in favor of his creditor and if in the meantime he should enjoy good health he would be able to discharge the debt wholly or in part, by the time the policy should expire

A person who wishes to be *benevolent* to any Association Church, College School Society or Institution of any kind can effect his object by an insurance on his life

If a young man is desirous of obtaining an *Education* or engaging in some *Business* and has talent for the former and tact for the latter a person who had the means would run no risk by insuring that young man's life

Such are some of the *advantages* resulting from Life Insurance and now for some *practical illustrations*

A *Lumberman* just before going into the woods, to engage in the laborious and hazardous occupation of felling trees, insured his life to the amount of $2000 paying the first premium of $40 six weeks afterwards he was crushed by the premature falling of a tree and his wife and infant child who otherwise would have been left penniless, received from the Insurance Company the sum of $2000

A *Mariner*, on one of our Eastern rivers engaged in carrying lumber to a Southern port, insured his life for $1000 after having made two payments of $10 each he was unexpectedly drowned and $1000 was immediately paid to his widow

A *Farmer*, one market day made a proposal for an insurance of $500 on his life, which was accepted On his way home he was thrown from his wagon and killed on the spot His family received $500 which enabled them to carry on the farm

A *Clergyman* aged thirty obtained a policy securing to his wife $2000 after making three payments of $23 00 each he unexpectedly died. His wife received $2000, with the profits of the policy

A *Lawyer* effected an insurance of $1500 and having taken a severe cold, ruptured a blood vessel during a paroxysm of coughing; this occurred after two payments His family received $1500

A *Merchant* whose health was good insured his life for $5000 he died of apoplexy during the first year, and the sum ensured was paid to his widow.

There is great advantage in getting insured at a *Mutual* office, for every such Company provides for the *annual* and *equitable* division of *all the profits* to life members, for instance A person aged twenty five years, insures on his life, in a *Joint Stock Company* the sum of $5000 paying the annual premium of $120 he dies at the age of fifty nine after having made thirty four annual payments which compounded at 4 per cent. per annum interest, amounts to $8 382 at his death his representatives receive only the original $5000 Now, suppose he takes advantage of the *Mutual System* and, to make a parallel case, at the same age insures for the same amount, and pays the same annual premium during thirty four years, these payments compounded at the same rate, amount to the same sum of $8 382 by the data we have given the accumulated profits give to this insurance $11,250, which, added to the sum insured $5000, makes the amount of $16,250 payable to the heirs of the insured at his death! Life Insurance is indeed the poor man's wealth, and a good investment for the capitalist. Pro Bono Publico

There is a branch of the Union Mutual Life Insurance Company in this city, of which Charles S Crosby, Esq, is agent.

An eminent Secessionist In the Charleston (S C) Mercury, talks of the exact time when the State is going out of the Union

As to the time when the State will secede, that will be, by unanimous consent, left to the decision of the Convention If a Southern Congress should meet, and propose efficient measures, every Carolinian will rejoice in and prefer united action If it fails, then there will be but one path for South Carolina to pursue —to secede from the Union unless by a certain day, the Constitution is amended, the right of secession affirmed and the boundaries of California reduced to 30° 30′ ...

Force of Public Sentiment The Garrison abolitionists have announced that they cannot procure for love or money a place in New York in which to hold their May meetings. They will meet at Syracuse—so the great nuisance of "anniversary week" is at length removed from our city [N Y Com Adv

**Agitation.**

The Atlas states that at an anti fugitive slave-law meeting held at Chelsea on Fast Day evening the following resolution was passed in reference to the Fugitive Slave Law

Resolved That we pledge ourselves individually and collectively to *pray* it down, to talk it down, to act it down, to live it down, *to vote it down!*

This resolve presumes upon the efficacy of prayers which are to be offered in accordance with it but the law is to come down whether those prayers are answered or not. A negro preacher is said once to have announced to his hearers that on the next Sabbath he should preach again *by the leave of Providence* but on the Sabbath after he should preach *whether or no* —Boston Trav.

## The Wonder of the Age!
BEWARE OF IMPOSITION!
*The Only Genuine and Original*
IS THE
NORTH AMERICAN ELECTRIC
## WASHING FLUID,

For Washing in either Hard or Soft Water.

THIS is the only genuine article to be found in the world; and possesses double the power of anything ever discovered, for washing clothes at a trifling expense, doing away with washboards at once. In fact it seems to be the long sought philosopher's stone, or universal solvent; seeming a magical preparation, its operation being of the most astonishing character. A common sized washing may be done with one gill of the Fluid, in less than two hours. It softens and removes the dirt, leaving the articles of the most brilliant whiteness, it being as harmless in its operations as pure water; and clothing will wear much longer than when rubbed to pieces by the common method of washing.

This Fluid is a powerful agent, to be used in all cases where soap is required, particularly for cleansing milk utensils, cleaning windows and paint, scouring floors, in short, it is beyond a precedent, as its use is universal in the washing world.

P. S.—All Colored Goods are rendered brighter by being washed in this Fluid: all Woolens are less liable to shrink, and thereby rendered much softer than by the old way of washing.

None genuine unless the Labels contain their Signature.

The above article is warranted by the Manufacturers not to contain soda, lime, camphene, burning fluid, or acids of any kind, but to be purely an alkaline preparation of the most powerful character, possessing more than double the washing power of anything ever discovered; being perfectly harmless in vapor, without possessing the caustic properties of the miserable articles which flood the market, and in many instances disgust the people to that degree that they are unwilling to try a good article when it really is to be found. The proprietors only ask a fair trial of this article, and are perfectly willing to forfeit any amount for a single failure in any instance where it is used.

**THE GENUINE BALM OF COLUMBIA.**

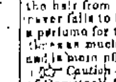

IF you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this balm. Age, state, or condition appears to be no obstacle whatever; it also causes the fluid to flow with which the delicate hair tubes are filled, by which means thousands (whose hair was gray as the Asiatic eagle) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalled. It holds three times as much as other, miscalled hair restoratives, and is more effectual.

☞ Caution—Never buy it unless you find the name of Comstock & Co., proprietors, on the wrapper of each bottle, or you are cheated with a counterfeit article.

**IN QUART BOTTLES.**

**For Purifying the Blood, and for the Cure** OF SCROFULA, MERCURIAL DISEASES, RHEUMATISM, CUTANEOUS ERUPTIONS, STUBBORN ULCERS, LIVER COMPLAINT, DYSPEPSIA, BRONCHITIS, SALT RHEUM, CONSUMPTION, FEVER SORES, FEMALE COMPLAINTS, ERYSIPELAS, LOSS OF APPETITE, PIMPLES, BILES, GENERAL DEBILITY, &c.

In this preparation we have all the restorative properties of the root, combined and concentrated in their utmost strength and efficacy. Experiments were made in the manufacture of this medicine until it was found it could not be improved. Accordingly, we find it resorted to almost universally in cases of Scrofula, Liver Diseases, Salt Rheum, General Prostration of the Vital Powers, and all those tormenting diseases of the skin, so trying to the patience and injurious to the health. It is a tonic aperient and disinfectant. It acts simultaneously upon the stomach, the circulation, and the bowels, and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time through the instrumentality of this one remedial agent. There are many ways of relieving pain for the time being, but there is only one way of removing disease. No palliative, no anodyne, no topical application will remove it. It must be attacked at its source, in the fluids of the body, which convey the poison to the localities where it is developed in inflammation, sores, ulcers, tumors, abscesses, glandular swellings, &c., as the case may be.

These fluids must be reached, acted upon, purified by some powerful agent. Such an agent is Sands's Sarsaparilla, which gently stimulates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Its great merit is that it meets and neutralizes the active principles of disease itself, and when this is done, the symptoms necessarily disappear. The rapidity with which the patient recovers health and strength under this triple influence is surprising. Each new case in which it is applied furnishes in the result a new certificate of its excellence, and we have only to point to the accumulated testimony of multitudes who have experienced its effects, to convince the incredulity itself of its real value.

Input, Miller of the Army has kindly sent us the following letter from California:

MONTEREY, Jan. 18, 1850.

*Messrs. A. B. & D. Sands:* Gentlemen—I feel I owe to add my testimony to favor of your invaluable medicine, hoping it may lead some other unfortunate being to try its effects, and that they may be benefitted as I have been.

I arrived here from the United States by the overland route, about the first of October last. A few days after I was attacked with a very disagreeable eruption of the skin, which my physician could not cure. I happened to find your Sarsaparilla in a store in this place, and remembering the popularity of the medicine at home, I purchased three bottles, which had the desired effect of removing my difficulty entirely.

With high regards, yours, &c.,

J. H. MILLER, U. S. A.

FROM THE STATE OF MAINE.

The attention of the reader is called to the following certificate of a remarkable cure effected by using only five bottles of Sands Sarsaparilla:

SIDNEY, (Maine,) April 15, 1850.

*Messrs. A. B. & D. Sands:* Gentlemen—This is to certify that through ..., of Sidney, County of Kennebec, State of Maine, has been afflicted more or less ever since my birth, with Scrofula, which continued to increase until last February. In January, my legs were so swollen I could not get on a boot or stocking, and I had several large sores on me all the time. In this situation, I was about to give up in despair, when I was advised to try Sands's Sarsaparilla. I had not much faith in it, but I sent to your agents in Augusta, Me., and procured a bottle, which did me so much good I sent and got another, and continued until I had taken five bottles. I am now perfectly well. I any person who may read this letter is afflicted with any disease of Scrofula, I would most sincerely recommend the advise them to make use of Sand's Sarsaparilla. If any person wishes further information about my case, by calling upon me I can convince them of the healing power of this medicine.

STEPHEN C. HAYWOOD.

To the Honorable Justices of the Supreme Judicial Court now in session at Bangor in and for the County of Penobscot.

SUSAN HERVEY, of Bucksport, in the County of Hancock, respectfully libels and gives this Honorable Court to be informed that she was lawfully married to Benjamin Hervey of said Bucksport, whose wife she now is, at said Bucksport, on the 30th day of January, A. D. 1833, and has had by him three children now living, viz: Ebenezer, Sarah, and James Hervey: that your libellant since their intermarriage has always behaved herself as a faithful, chaste and affectionate wife toward him, and that the said Benjamin Hervey, wholly regardless of his marriage, covenant and duty, did wilfully, and without reasonable cause, in the month of January, A. D. 1845, desert your said libellant, and ever since that time and to the present time, being more than five successive years, has wilfully, and without reasonable cause, and without consent or collusion by the said parties, and against her consent, and without any intention on her part to procure a cause for divorce, deserted her the said libellant, and during all that time has wholly neglected to contribute anything for her support, and has gone to parts unknown to your libellant. She further represents, that during all that time she has neither seen nor heard from the said Benjamin, and that she has supported her said children without any aid or assistance from him. Wherefore the said libellant prays that she may be divorced from the bonds of matrimony between her and her said husband, and that the custody of their said children, who are all minors, under the age of fourteen years, may be committed to her, and that an order of notice to said Benjamin may be issued returnable to the next term of said Court in the County of Hancock, where said libellant resides. And as in duty bound will ever pray, &c.

**BOGLE'S AMOLE,**

A COMPOUND FOR SHAVING.

This delightful article is totally different and superior to anything yet invented for shaving. The base of it is derived from the Amole, or Soap plant of California, an article used by the natives of that country for washing; and thus, the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effect on the skin—it soothes and allays irritation, and forms a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, calculated either for the through and ready traveller, or the toilet of the most fastidious connoisseur.

FOR

**Coughs, Colds, Consumptions,**

*AND ALL AFFECTIONS OF THE LUNGS.*

THE VEGETABLE PULMONARY BALSAM, having been tested by the experience of thousands for the last twenty years, is recommended by eminent physicians and others, of the highest respectability, as superior to any other preparation.

*From the Editor of the Burlington Sentinel,* May 17, 1848.—"The Vegetable Pulmonary Balsam prepared by Reed & Cutler, of Boston, has become the most popular medicine ever put forth for the cure of *Coughs, Colds and Consumption.* That it is worthy of its high reputation is made sufficiently evident by the immensity of the annual sales—Messrs. Reed & Cutler are above quackery, depending alone upon the intrinsic virtues of their medicinal preparations, for their disposal. Humbug is so plentiful that it gives us real pleasure to offer the trifling and grateful tribute of our recommendation to a medicine we know to be of real merit."

An eminent physician writes us,—"I have for some time past been in the habit of prescribing the Vegetable Pulmonary Balsam for consumption, asthma, pleurisy, spitting of blood, and coughs, or pulmonary affections of every kind; and with confidence recommend it as superior to any other preparation used for these complaints."

Nov. 1, 1850.—New Certificates, to almost any extent, might be added if deemed necessary; but the proprietors feel that the article has become so universally well known, and its virtues so generally acknowledged by physicians and others, as to make it unnecessary to offer at this time, further proof of the merits of this highly popular article.

☞ BEWARE OF COUNTERFEITS AND IMITATIONS, such as CARTER'S Compound Pulmonary Balsam, American Pulmonary Balsam, and others in part bearing the name! Enquire for the article by its whole name, the

"VEGETABLE PULMONARY BALSAM," and see that it has the written signature of Wm. John Cutler upon a yellow label, on the blue wrapper. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."

Prepared by REED & CUTLER, Importers and Wholesale Dealers in Medicines, Paints, Chemicals and Dye Stuffs, 33 India Street, Boston, and sold by Druggists, Apothecaries and Country Merchants generally. For particulars and recommendations, see pamphlet accompanying each bottle.—Price 50 cents.
